

Explore our cushion options designed to provide comfort and support. Choose the single bottom cushion for a sleek and minimalist design, ideal for short periods of sitting. Opt for the bottom and back cushion for added lumbar support, perfect for longer durations. Available in multiple colors, our cushions enhance the usability and comfort of your locker spaces.

BOX STYLE CONSTRUCTION (BOTTOM ONLY)

- Same height boxing around cushion
- 1" to 3" foam
- 1/2" or 3/4" plywood
- Velcro fasteners attached
- Monogram option available
- T-Nuts can be installed with customer provided CAD drawing
- 100% customizable to fit your specifications
- Multiple color options available (*can match almost any PanTone Color; contact a sales rep for more info*)

BOX STYLE CONSTRUCTION (BACK & BOTTOM)

Please find an overview of any FAQs regarding the seat cushion - please take notes for any questions asked that are not on this document.

1. What do the cushions cost?

It depends on the specifications (size, thickness, Qty.) A rep can help get you a quote.

2. Will the cushions work with a unique locker design?

Certainly, they are 100% customizable to your specifications.

3. How do the cushions attach to the locker?

They are available in two types; wood & loose. By using ¾" plywood the ProCushion can actually function as the locker bin lid or use ½" plywood and easily Velcro or screw them onto the locker lid from the bottom. The loose type of cushion simply rests on the locker bin top. One advantage to a loose cushion is they are reversible which essentially doubles the life of the cushion.

4. How thick are the cushions?

They range from 1 ½" – 3" thick. A general rule of thumb is the thicker the softer however for many of our customers the aesthetic look of a 2" cushion seems to be the most popular.

5. Are back cushions also available?

Yes, and as with the bottom cushions, they are available as a loose cushion or wood backed. If you would like we can affix Velcro strips to the loose cushion to help it stay in place.

6. Do you have cushions available for benches?

Certainly, because they are made to order they can be manufactured in any size or shape.

7. Can I get them in different colors?

Yes we have hundreds of different colored vinyls to choose. Give us a PMS color and we will match it up as close as possible to a high quality vinyl.

8. Can a logo be incorporated on the cushion?

Yes, we have two different logo options to choose from. The most popular option is digital printing. With the use state of the art printers and UV curing inks and the colors can be matched to PMS colors. Embroidery is also offered.

9. Do you work with CAD drawings?

Yes.

10. What is the typical lead time?

Once we receive the purchase order and down payment, it is typically 3 to 5 weeks.

11. Are there specifications when submitting art?

Yes, when sending art / image files we recommend sending them as Vector files whenever possible. (artwork specifications provided).

12. Where are the cushions made?

They are 100% American Made.

GENERAL ARTWORK REQUIREMENTS

When sending art / image files we recommend sending them as Vector files whenever possible.

Acceptable File formats (vector) :

EPS (vector files), Adobe Illustrator 2020 or older version (text converted to outlines), CorelDraw 2019 or older (converted to curves). Some PDF files work, and PSD (layered) files may be acceptable. Please submit for evaluation.

Files sent in other than these formats could result in delays and additional charges when processing the orders.

Unacceptable formats (raster):

GIF, JPEG and BMP files are not acceptable formats but they are useful when emailed only as a reference for quoting or to insure elements do not drop out of your artwork.

NOTE: A scanned image or logo placed into Illustrator or CorelDraw and saved as AI, EPS, PDF or CDR is not a true vector art file and is not considered camera ready art. Submitted files that are not true EPS, AI, CDR or PDF formats must be fully recreated. To convert these type of files will incur an art charge.

If you don't have art, it's not a problem! We can create custom artwork to fit your specific needs. All artwork must be proofed and approved before we print. When proofing artwork be sure to check all spelling, phone numbers, and addresses. Once you sign off we are not responsible for any incorrect information you approved.

Regarding Color Matching

When requesting a color match, please specify PMS Colors. We use the Pantone Solid Coated chart.

Sample of some standard colors. Almost any Pantone Color can be matched.
