

The background of the entire page is a stylized American flag, with white stars on a grey field in the upper left and white stripes on a grey field in the lower right. Overlaid on this background are several technical drawings of mechanical parts, rendered in a light orange color. These drawings include various rectangular shapes, some with internal features like holes or slots, and a large, complex curved shape at the bottom left.

LOCKERS™

MANUFACTURING any design. any material. any technology.

TA-50

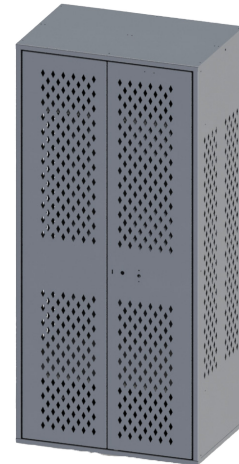

In the TA50 Series lockers, all of the components are welded into a single rigid unit to resist damage for the life of the product. Equipped with diamond perforated doors and sides, this locker offers a high degree of air flow. It comes with a standard 2 mil thick powder coat baked enamel finish, available in 20 standard colors as well as any custom color.
